APPLE WORMS.—A private letter from Chenango county, N. Y., describes an invasion of apple-tree worms that entirely strip the trees of foliage, and even invade the houses in armies. What the worm is, is not stated, but it described as green in color.

FINLEY'S HELIOTROPE.—The Washington Star of May 28 reports the successful testing of the new army and navy signaling apparatus invented by Lieut. Finley and adopted by the War Department, perfect night communication being had from the top of the Washington monument to Fort Meyer in Virginia. The method employs the mirrors in day work, and artificial light at night, and the novel feature of Lieut. Finley's method consists of representing the dash by two lights in a horizontal plane and the dot by one light. That improvement avoids the liability which the signals are observed.

An Incident and Its Suggestion.

MR. EDITOR. -On Decoration day, a young lad entered the Sanitarium with his hands filled with flowers for "the sick people," he said. We know not remember the sick on that day, when Saturday. Among the dainty souvenirs Methodist church will be held at five every one else was bent on doing honor to the dead, but we do know that the memories of those beautiful flowers will linger long after their fragrance has departed and the flowers have faded and gone.

We think, if the good people of your beautiful little city could see the smiles light up the faces and the pleasure that a few flowers give to the weary sufferers, they would esteem it a great privilege, if not a duty, to send of their abundance.

Where is the flower mission of the W. C. T. U? Would not this be a fine field of labor for them?

Where are the pastors? We judge by the church spires pointing heavenward that there must be shepherds of the folds. Could they not include the Sanitarium in their pastoral calls? If they cannot come, could they not send some of their singers for a service of song; or those that cannot sing could bring a book of some favorite author and spend an hour in reading. We assure you it would prove a sweet oasis in the desert of Sanitarium life. A PATRIOT.

Kissane and His Family.

For over twenty years Rogers has lived in this State, and no one to look

upon his benign face would imagine him the character his many criminal acts prove him to have been. I saw him a few years ago at his country seat in Sonoma county, surrounded by his family, consisting of a wife and eight children, two of the latter being a step-daughter and son. The young lady is very pretty, and a great favorite in society, and the step-son is a model of propriety and well liked by both business and social associates. His wife is a charming woman, approaching the meridian of life. Time has used her kindly, much more so than it has the Colonel, who bears the trace of trouble deeply graven in his parchment-like face, and indicated by numerous deep furrows which the sixty odd years of time have not un-He stands about six feet in height, is erect, and has a soldierly bearing. His hair, or what there is left of it, is snow-white, and a silky mustache of the same color adorns his lip. His eyebrows are bushy, and from beneath them peer a pair of very restless steel-gray eyes. He has high cheek bones and a receding forehead.

The Colonel has surrounded himself with all the luxuries that money can procure, and is very proud of the elegance of his country-seat. It is located in the most charming part of the county, about six miles from the little town of Petaluma. The house, which may more fittingly be termed a palace, is built of the finest of finished stone and stands in the midst of large grounds, surrounded on all sides by grassy lawns, graveled walks and rare exotics. Back of the homestead stretches acres upon acres of the Colonel's possessions, most of which is in vineyard, producing thousands of

gallons of wine each year.

It is through his wife that Rogers is connected with J. B. Haggin's family, with the family of Lloyd Tevis, and through these families with the Sharons and Lord Hesketh, of England, who a few years ago married Flora, the youngest daughter of the late Senator Sharon.—From a San Francisco Letter.

Horrors of Indian Warfare.

"Did I ever teil you of a little incident that happened during the Indian war of 1862?" said Lieut. Morgan, of the police force, yesterday. "Well, I was a member of company A, 6th Minnesota volunteers. When we were up in a county which had been devastated by the Sioux there was a detail from our company sent out under the command of Capt. Grant, of my company, to bury the dead. Above Birch coulee we found a man who told us that he, with his wife, two daughters, and a little son, were in the garden when he heard the crack of guns. His wife daughters dropped dead. He grabbed the boy and started to run down the road. He was followed by the Indians, yelling savagely and firing rapidly. He could not carry the boy and get away, so he dropped him and ran on. The little fellow followed him, shouting 'Papa, papa!' but was soon overtaken by the Indians, and he heard him shriek and knew that he had been killed. After burying the dead around Redwood we came back by the way of where the man lived and found the bodies of his wife and daughters as he had said. Down the road we found the body of the little boy thrown into the hazel brush. The bodies were all mutilated in a horrible manner. At thé fight at Birch coulee the man was killed. If he told his name I can not now remember. That was one family entirely wiped out. In all the reports of those dark days this circumstance has never been published." -- St. Paul Pioneer Press. ---

May Baskets.

Have you never had or hung a Mav basket? O, what rare fun it was in childhood's days to weave a basket of parti-colored papers, place within a "bunch" of May-flowers, steal noiselessly in the twilight to the home of some little playmate, give the bell a prodigious pull, or the brass knocker a terrific clang, and then scamper off to some safe retreat and watch until the basket was taken in. Or, to wait at home with beating heart until our bell gave a wild peal, then rush to the door as fast as feet could carry us and find a basket with our name on it, to lift out the fragrant flowers, and once (O memorable occasion!) to find a little frosted cake; then to place the flowers in water, and then scan the writing closely in order to find out the donor, was enough to make May day a redletter day in our calendar and help

perpetuate the innocent festival. After a while more elaborate baskets, cometimes of silver, ivory, wood, in dainty devices and cunning workmanship, and bearing choicest hot-house flowers, with some rare gift of jewels concealed, were sent by the wealthy people to their friends; but in whatever form it appeared the May basket was a survival of the old Roman Floriala. But in our northern climate it will be urged that it would be unwise to devote a day to out-of-doors pastimes. That is very true, and so in some communities a May party is given in a hall, a pole erected and decorated, various games played, and a general rejoicing that

time of the singing of birds has come." -Rhoda Lan.er, in Good Howsekeep-

I wish to say a word or two more conandria, Va., relates this anecdote of cerning that sense of something like Lafitte, the pirate of the Gulf. The personal ferocity in the power which laid hold of us, which I have confessed to receiving from the first and longest of the earthquake shocks! It afterwards appeared that everybody who was cool enough closely to observe his own sensations had experienced much the same thing. One Englishman, who arrived a few days later from cane, he needed of course, supplies, and particularly salt and iron, which stricken Mentone, and who seemed articles were scarce and hard to get cherish fresh and ten ler recollections at the time, owing to the war with his school-days, compared his feelings England in 1812-15. A third of more pastoral proclivities, thought of a slender tree, grasped by the mighty hand of one who would shake off all its fruit. One and wanted, started for home with his boat all had the sensation of being laid hold of by some ruthless and monstrous individuality,-much like the feeling, I should say, which the insect must cast upon an island. While on this have which sees the giant foot descendlonely island he was found by Lafitte a ing that is to crush out its little spark of conscious life. Of this first unreasoning and excessively heathenish impression I never was quite able to rid myself. "Deliver us," I could have said, on the authority of the Revised Version, "from the Evil One who has done this thing!" All through the next three or four days, -days of the most serene and surpassing loveliness, whe we used to go out upon the dry hillside. and lie down for a little under the olives, in the hope of catching a few moments of thoroughly sweet and un tormented slumber, -I had ever the notion that It was lying under me, with vast limbs gradually relaxing from their awful spasm, and I could have sworn at times that my mossy couch and it was then that Mr. Martin had in trembled a little, as with the long quiver of a subsiding sigh. It made no difference how high we climbed. Up even to the almost Appine heights above the olive, where one could take in the whole sweep of that enchanting littoral, from the Esterel to far below Capo San Ampeglio, the same strange fancy pursued us,-that of an immense unknowable, and malignant power which had made all those miles and miles of sweeping land to flutter like the fold of a banner. I remember the earthquake which visited Elijah in the desert, in which, it was distinctly asserted, the Lord was not, and wondered if the next religion preached n the parlors of Boston would be Manichean, and if I should be its prophet. The meeting of the Society will be held on the morning of May 11, at which General Sheridan will preside. The oration will be delivered in the evening of that day at the Congregational Church. The statue will be unveiled on May 12 with appropriate ceremonies, at which the President and members of the Cabinet will be present. The Society will be escorted to the Capitol by the United States troops and marines stationed at Washington, the militia of that district, and the Grand Army posts. The pedestal for the statue has been crected on the circle at the intersection of First street and Maryland avenue, Congress having appropriated \$20,000° for this purpose. The statue was paid for by the Society of the Army of the Cumberland, and will be placed on the pedestal the first week of May. On the evening of May 12 a grand symposium will be held at Abner's Garden, and on the day following the Society will be taken to Mount Vernon and Marshall Hall.

Women as Street Cleaners. In several of the South American countries-notably Chili and the Argentine Republic-women are employed to sweep the streets. This plan was first adopted by the Government of Chili when most all the men in the Republic were engaged in the subjugation of Peru, but it proved so successful that it was not only continued but was adopted in the adjoining Republic. Contracts are let to women or to men, as the case may be, for keeping a portion of the city clean, and every morning at about 3 o'clock gangs of women go out with their brooms and sweep the dirt into little piles, when it is gathered up by men with carts, who follow them. contracts are small, and the territory to be swept by each contractor does not amount to more than a mile of our pavement. The streets are paved with Belgian block like Fifth avenue, railway stations are to be closely and are always as clean in the morn-

Not long since a little girl in this city not over 10 years old was very ill. One day she insisted on seeing her father at once. He was telephoned at his counting-room, and on reaching the house the little girl said: "Papa, I think I am going to die, and I want you to do something for me instead of building a monument over my grave. What would a monument cost?" father tried to dissuade the child from speaking of death, but she persisted, until finally he said a monument would cost any amount of money that might be desired to expend on it. "Well," one to change the conversation. "No,' In German Switzerland it is believed said she, "I want you to promise that if I die you will give the \$100 to build another swing in the park for the little children, instead of building a monument for me." The child had been in the habit of walking in the park, and had noticed the delight that many poor little children have in the her that might have suggested itself to many of our philanthropic citizens long ago. Very Deep Snow. The Watertown (N. Y.) Times has been learning something of the severity of the past winter in Lewis county from the inhabitants thereof. One gentleman in the town of Montague, which lies in the western tier, bordering on Jefferson and Oswego counties, states that there is near his residence a ravine 160 feet deep, which is still filled even to the top with snow, and the country around it looks as level as a western prairie. The snow was blown into the ravine during the winer. It seems impossible that such a body of snow can be dislodged in a single summer, and it is not unlikely that the inhabitants of the town will have snow to eat in July and August.

TREATING THE WRONG DISEASE.

Mrs. E. F. Morgan, of No. 71 Lexington St., East Boston, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians. I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking Dr. Pierce's Favorite Prescription and using the local treatment recommended in his 'Common Sense Medical Adviser,' I commenced to improve at once. In three months I was perfectly cures, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full 'particulars to any one writing me for them, and enclosing a stamped-envelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and have earnestly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein; and were much better already."

JEALOUS
DOCTORS.

A Marvelous Cure.—Mrs. G. F. Sprague, of Crystal, Mich., writes: "I was troubled with female weakness, leucorrhea and falling of the womb for seven years, so I had to keep my bed for a good part of the time. I doctored with an army of different physicians, and spent large sums of money, but received no lasting benefit. At last my husband persuaded me to try your medicines, which I was loath to do, because I was prejudiced against them, and the doctors said they would do me no good. I finally told my husband that if he would get me some of your medicines, I would try them against the advice of my physician. He got me six bottles of the 'Favorite Prescription,' also six bottles of the 'Discovery,' for ten dollars. I took three bottles of 'Discovery' and four of 'Favorite Prescription,' and I have been a sound woman for four years. I then gave the balance of the medicine to my sister, who was troubled in the same way, and she cured herself in a short time. I have not had to take any medicine now for almost four years."

THE OUTGROWTH OF A VAST EXPERIENCE.

The treatment of many thousands of cases of those chronic weaknesses and distressing allments peculiar to females, at the Invalids Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had buffled their skill, prove it to be the more aggravated and obstinate cases which had buffled their skill, prove it to be the field and cure of suffering women. FREE PRESS LOGIC.

The Detroit Free Press of Sunday devotes a column to the editorial defense of Gen. Butler for his advice to insisted upon the duty of defending criminals known to be guilty, and declared that he never wished to defend a man unless he knew he was guilty-for which a storm of criticism has been "There is a good deal of idle and some foolish talk," the Free Press in defending clients that they know to * * * but no thoughtful person will question the soundness of Butler's advice. Nominally, the prime purpose of the criminal law is the punishment of the guilty; really it has been found more important to prevent the punishment of the innocent. Two of our noblest maxims have been formed with reference to this attitude of society toward those charged with or suspected of crime. 'It is better,' says one, 'that ninety-nine guilty men should escape than that one innocent man should suffer punishment.' 'Innocence is presumed,' says the second, 'until guilt is proven.' In these two maxims is found the fullest justification for the code of professional conduct which Butler lays down." That is what the Free Press says, and the lameness of its logic is only exceeded man known to be guilty cannot be presumed innocent; and aiding such a one to escape is frustrating what the Free Press declares to be nominally the prime purpose of the law, and does not important, preventing the punishment of the innocent. Thus, the justification which the writer finds for the Butler code is founded upon a presumpasserted without dishonesty and falsehood, for the lawer in this case, rememexcuses the deliberate and intentional violation of the prime purpose of the law by an officer sworn to support it, on the pretext of preventing the punishment of an innocent man who is not accused and is in no danger.

The logic of the Free Press grows no there were defenses only in cases where accused persons who could not persuade a lawyer of their innocence would be compelled to go to trial without counsel," it says. That is quite outside of the question, which is upon the duty of a lawyer where he knows the man to be guilty, not merely lacks belief in his innocence. Besides, that is not true, for the law provides for the appointment of counsel by the court where the accused cannot procure it, and neither Gen. Butler nor any of his critics was speaking of defense under order of court. "Accused persons," the paper goes on to say, "would be convicted on wholly insufficient evidence, which is against sound policy in is not against sound policy that the guilty should be convicted, but only that they should not be convicted on insufficient evidence. If sound policy require the conviction of the guilty, how can it also approve the voluntary defeat of conviction by a lawyer who knows of the guilt? We submit that the Free Press has not made it plain.

WHEN Father McGlynn speaks ap provingly of political assassination, as he did in a public address recently in New York, we are very sure that he will lose the sympathy of a large and important class of American citizens who, in any issue of individual inde pendence against ecclesiastical authority, are always disposed to side with the individual and against the authority. Independence of conscience against ecclesiastical authority is a very different thing from independence of conduct against legal authority, and while the American people might not and certainly would not approve Father McGlynn's wild notions about land ownership, he would doubtless have their sympathy in any conflict which his church authorities might urge against him because of his advocacy of those notions and of their peaceable adoption; but when he expresses his sympathy with men who are seeking to commit murder, he will lose the sympathy that before was his. It matters not at all that it was the Czar of Russia whose assassination he countenanced. and whose attempted murderers he eulogized as grand and noble and heroic. "Killing for political purposes is to be considered as something totally different from the crime of murder," he said. That is what the infuriated Orangemen thought when they tried to kill O'Brien "for political purposes," and what Guiteau thought and said when he did kill Garfield "for political purposes," and Booth when he in 1876, died at his home at Malone, N killed Lincoln. Those and the Russian assassins all offer the same justification -that they believed they were doing a ex-Presidents and ex-Vice Presidents, public service; and if Dr. McGlynn and Blaine and English alone of all he must do so in the others, unless he parties, excepting President Cleveland shall say that their nobility and heroism consist not in acting upon their own potion of who should be killed, Monday, republicans and democrats but upon his. SOMEBODY in Ann Arbor, concerned, we suppose, about our reclamation from fatal error, sends us a tract by in the least secure what it finds more mail defining the three great sins of christendom-religious sins, which it says are the worst of all sins. The sender violates the law by writing upon it, "Please read," which was an untion of ipnocence which cannot be necessary exposure to fine and imprisonment. And what, do our readers suppose, are these three awful sins? They ber, knows the client to be guilty; and it are, "Trying to be good"; "Trying to love God "; and "Trying to believe, We have seen people who seemed to be successful in avoiding all of those offenses, but we did not feel specially drawn toward them on that account. Our friend should have put the tract in the hands of some such. It would better as the article proceeds. "If probably be more in harmony with their views than with ours, and they lawyers believed their clients innocent, might not throw it in the waste basket, as we are impelled to do.

THE fearful prediction of the Ann Arbor Argus that neither Gov. Luce nor Mr. Campbell, his private secretary, will ever be heard of again in Michigan politics, because of his action on the University bill, would be quite funny if the evidence of hysterics on the part of our democratic contemporary were not provocative of sympathy rather than smiles. If our memory rightly serves us, the influence of the Argus and its opinions as to the wisdom of electing Mr. Luce were given no consideration whatever, last fall, and they will no doubt figure about the same when the matter again comes up the case even of the guilty." Then it for consideration. There is a difference between earnestly expressed disgreatly in favor of the former in the estimation of reasonable people, but it does not so commend itself to the Argus editor. If the Michigan State University had no wiser friends than several of the more prominent personages residing in the town in which it happens to be located seem to be, it would indeed need to pray to be delivered from them. We by no means desire to defend Gov. Luce's veto of the University appropriation bill; we believe he made a mistake in so doing, but that fact is not made manifest by the low, disrespectful style of abuse being indulged in by Ann Arbor papers and prominent residents of that city. Such abuse will injure the cause it seeks to defend and make friends and supporters for the man against whom

EVERY DAY.

Every day is a fresh beginning,
Every morn is the world made new.
You who are weary of sorrow and sinning,
Here is a beautiful hope for you—
A hope for me and a hope for you.

All the past things are past and over, The tasks are done and the tears are shed. Yesterday's errors let yesterday cover; Yesterday's wounds which smarted and And healed with the healing which night has shed.

Yesterday now is a past forever, Bound up in a sheaf, which God holds tight. With glad days, and sad days, and bad days, which never Shall visit us more with their bloom and their blight, Their fulness of sunshine or sorrowful night.

Let them go, since we cannot relieve them, Cannot undo and cannot atone. God in his mercy receive, forgive them! Only the new days are our own; To-day is ours, and to-day alone.

Here are skies all burnished brightly, Here is the spent earth all reborn, Here are the tired limbs springing lightly To tace the sun and share with the morn In the chrism of dew and the cool of dawn.

Every day is a fresh beginning! Listen, my soul, to the glad refrain, And, spite old sorrow and older sinning And puzzles forecasted and possible pain, Take heart with the day, and begin again! -SUSAN COOLIDGE.

CHICAGO, ROCK ISLAND & PACIFIC R'Y By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakots, and hundreds of intermediate cities, towns and villages.

THE CREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and—between Chicago, St. Joseph, Atchison and Kansas City—restful REOLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this routs solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesots. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown. A short desirable route, via Senece and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention. kindly attention.

> The Senate on the 26th passed Senator Monroe's bill revising the State Banking Law. The most important feature of the bill is the creation of a banking department the head of which is to be entitled the Commissioner of Banking and is to receive an annual salary of \$2,500. His duties in relation to State Banks are almost identical with those of a National Bank Examiner to the National Banks. Senator Crosby's bill to transfer the tax collecting part of the Auditor-General's work to the County Treasurers of the respective counties was defeated. House bill appropriating \$62,105 for new buildings for the Agricultural College passed the Senate. The Senate also passed a bill requiring the use of blowers on emery wheels in all factories where the same are used. The Senate declined to concur in the House amendments to the University Appropriation bill, and a committee of conference was ap-

pointed. The Senate on the 27th passed the House bill amending the charter of Portland City; to make an appropriation of \$75,000 for the State Industrial Home for girls; to regulate the powers and duties of school trustees in the City of Jackson, and House bills to prevent crime and punish truancy, and to prohibit the employment of male children under 14 years and female children under 16 years more than nine hours per day. The amended House Ilquor bill was under discussion in committee of the whole through the afternoon and was continued at an evening session. The tendency was to attach amendments making the bill less stringent without as yet disturbing the higher tax.

HOUSE.

The House on the 25th took from the table and passed the Rogers bill to regulate passenger and freight traffic on Michigan roads. The bill requires that all railroads shall conspicuously post placards showing their passenger and freight rates in depots, prohibits pooling, prohibits the changing of a larger or an equal rate for a short as for a long haul or charging a greater rate from one person than another for the same service. Violations of the bill are made punishab e by fines of from \$500 to \$1,000 for the first offense and from \$6,000 to \$10,000 for a third offense. Bishop Gillespie, of the State Board of Correction and Charities, has unearthed what promises to be a scandalous exposure of brutality practiced on poor-house inmates. A special meeting of the board was recently held, at which Mr. Bishop made a report of his inspection, on May 9, of the Berrien county poor-house, located at Berrien. Centre. The report states that pauper inmates are punished by whipping. Idiots and insane patients are confined in the same apartments with other inmates, and there is a general condition of filth and foulness. Secretary Storrs was instructed to write to the County Superintendent of the Poor at Berrien and ascertain the facts as to the practice of whipping paupers, and by what authority it was done. Dr. Gillepsie had not secured spec fic cases of brutality, but if on investigation it is found that the whipping-block is an established custom, Circuit Judge Smith will be asked to put an end to the abuse. The board will also under-

That German who has invented a simple method of deadening the sound of the piano deserves a monument of solid gold. The contrivance consists merely of the application of fine flannel to the frame between the strings and hammer of an upright piano. The sound can be graduated at will without injuring the quality of the tone.

A Butcher Bird Whips a Snake. Edward Perry, of this city, while mear Florence, on Wednesday, witnessed a prolonged fight between a small butcher bird, about the size of a mocking bird, and a spotted snake about three feet long. Mr. Perry came upon the combatants, how long after the fight he did not know, but witnessed its conclusion at the end of an hour. This snake would coil up and strike at the bird as it came at him, but without effect. Then the bird would dart at the reptile and strike it on some part of the body. Then the snake would raise its head several inches and keep its forked tongue in motion back and forth for a full min-This was the bird's opportunity, and he profited by striking the snake on the body.

Twice the bird went to a small stream and took a drink, returning to the contest with renewed vigor. At last the snake grew weary, and a sudden dart by the bird at its head caused the loss of an eye. The snake then, for the first time, tried to get away, and writhed in pain. Soon the bird knocked out the other eve. When the bird discovered that his victory was complete he went away, when Mr. Perry went to the snake and saw that its eyes were out. He left it to its fate, which was that of a blind snake, without means of finding food .- Los Angeles Express.

A WIFE'S RIGHTS.

"John," said I one night to my husband, as I put my basket of sewing away preparatory to retiring, "John, as you go down to-morrow morning, I wish you would stop at Mrs. West's door and leave her \$5 from me.' "Five dollars!" and my lord looked

up quite astonished. "For what?" Why, she is collecting money to aid that society she is Secretary of, and as I always felt interested in it, I told her I would give her \$5.'

I said this with quite a show of assurance, though I really felt quite uneasy as to the reception of my request, for John is rather notional in some of his ways; however, I had been cogitating some matters lately in my own mind, and determined to make a

"Your money! What do you mean?" Have I no right to spend money as well as you? I don't approve of the Masons, but that does not hinder you from spending money and time for them as much as you have a mind."

John looked at me quite amazed at my sudden outbreak. You see, I had always been the most amiable of this talk, anyway? for I don't see any wives. Then he broke out quite triumphantly, "Come, now, who earns the money that maintains this family?" "You and I together," said I.

"Together!' Well, I should like to see the first cent you have earned in the seven years we have been married. Together! Well, I call that pretty rich." My spirits were visibly declining boldly as I could.

"No, sir. Well, meantime we have laid by money enough to buy this house and still have some in the bank.' "Thanks to my hard work!" chimed

in John. "More thanks," said I, "to the perfect good health we have always had. We made all those promises for better or for worse.' Now, it has been better with us all the time. "Twickenham Ferry."

We rode in the coach as far as well known from the song, "Twickenham Ferrry," which Miss Thursby used to sing so beautifully, as by being the home of Alexander Pope and Horace Walpole. The house in which Pope lived has long been pulled down and a new villa built in its place. "Strawberry Hill," which was Horace Walpole's residence, is about half a mile from the Village of Twickenham and lies on the bank of the Thames. The extensive grounds have been cut up and sold for villa sites, and are now mainly occupied by cheerless modern brick residences. The Strawberry Hill house is of gray stone, built in the style of a castle. A high wall, like those about all English residences, surrounds the place. The road now runs close to the house, which is surrounded by large elms and other kinds of trees. The late Countess Waldegrave occupied the Strawberry Hill residence for many years, collecting there many objects of art which had belong to Walpole. As we drove through the town "coachy" pointed out the ferry over which the susceptible youth of the song used to to run his boat. A little, narrow, dark lane leads down to it. There is a bend in the river just here, the bank running out in a low gray line partly covered by water. The river looks low and muddy and not at all poetical, as we have been led to believe by the song .-

Both texts combing to show us that if we must fight we should do it well. There is something absorbing in the military science of the Bible. In olden times all the men between 20 and 50 years of age were enrolled in he army, and then a levy was made three or four classes exempt—those who had built a house and had not occupied it; those who had planted a garden and had not reaped the fruit of it; those who were engaged to be married deliberate. General Observations.

A student in the law department of the University broke the amateur record of the world for high kicking, a few days ago. He had probably been been trained up to that point as a member of the recent Kirmess chorus.

"If love were what the rose is and I were like the leaf," sings the author of a song just received. Love would be filled with bugs and would live about six days if properly cared for, if it were what the rose is; and the singer would be a green thing, if he were like the leaf, and he probably is.

Damon is a fearless sailor, and happening to be on the deep, dark waters of the Huron last Saturday evening, when the clouds were black and threatening, and the waves ran high and strong, he proved himself master of the occasion and by his coolness and bravery succeeded in landing the vessel in safety, thereby saving his precious passengers from the awful fate of a watery wade and wet soles. A new boat house has been built for the especial accommodation of the Huron Belle, the architecture of the new structure being in style the most ancient known to the art.

Unless the untolding of the scroll of inturity shall indicate beyond possibility of successful contradiction that we are as prone to error as a weather prophet, or as the sparks fly upward etc., high on the list of inventors and benefactors of the race of the present century will be found the names of two Ypsilanti men, R. C. Hayton and Bruno St. James. Owing to the peculiar purpose of their invention it may not occupy as public and prominent position in the eyes of the world as have other less valuable patents, perhaps, but it will be there just the same, and its forming and sustaining power will a boon and blessing prove in times and places where its beneficent influence is most needed. Of course we refer to the new Self-adjusting Spring Bustle which was granted a patent by Mr. Montgomery at Washington last week. The bustle problem has thus far been a stumbling block in the path of progress, as it were, and the announcement that it has at last been satisfactorily solved will be hailed with joy by all the suffering sisters of Eve. Heretofore when a lady left her home for a shopping excursion or a friendly visit, rejoicing in the blessings of health and strength and the set of her new bustle, it has been by no means certain that she would not return heartsick and broken. or crushed out of shape. It was all the fault of the heathenish old fash ioned bustles, of course; they would become disarranged and give their trusting possessors the appearance of peculiar development or walking sideways; they would collapse when the necessity for their proper behavior was greatest; they would shrink beneath the weight and responsibilities of life and refuse to again assume their proper shape, and in seven or thirteen other ways would the painful peculiarities of the old fashioned bustles combine to make life for their wearers one long procession of days of weeping and nights of waking. But the new Hayton & St James Bustle will cause all tears to be dried and will come as a ministering angel to bustleburdened hearts. It will stick closer than a brother, and will be true to the trust reposed in its shape though all other friends may faithless prove and has been reengaged as keeper of the other hopes may fail. The Great Sunday School Convention.

I attended the great International Sunday School Convention at Chicago.
The greatness of the S. S. idea struck
me. Could Robert Raikes with his
four paid teachers in Gloucester a century ago have looked in on this magnificent gathering of S. S. workers to the number of about 2000 from all parts of the United States and Canada, from Nova Scotia, New Brunswick, New-foundland, Prince Edward Island, from British Columbia and Alaska, as well as foreign countries, they would have been astonished. Surely the little stone has become a mountain and it has filled the whole earth.

The 5th International S. S. Convention was held in Armory D., Chicago, June 1, 2 and 3. It was an unqualified success, and the workers no doubt went away impressed with the importance of the S. S. work. The large hall was an excellent place to hold such a gathering in. Flowers, flags and mottoes were hung in profusion. Banners representing the different states were scattered throughout the main floor where the delegates sat, and the dele-S. statistics were printed on banners feed store Congress St. south side. P. H. Devoe. and hung around the hall.

Mr. Reynolds of Peoria, Ill., was chosen chairman of the convention and eign nags at the lavish display of bunting. I saw one, the "Union Jack" of England lovingly wrapped in the folds of two U.S. flags. If there were any others I did not discover them. The Stars and Stripes covered everything as they naturally should. Great speakers were there, learned and eloquent men, yet earnest and humble men, full of the

Dr. Worden of New Jersey spoke of the great good the S. S. was to the state, but there are yet 6,000,000 children unreached by S. S. influence, be-

tween the ages of 5 and 6, in the U.S.

Dr. Wharton of Alabama made a magnificent address, full of the fire of southern eloquence. He laid his hand on his heart and said, "I can truly say, I know no north, no south, no east, and the solid south, we are solid against

The convention was excited to a pitch of enthusiasm when a colored delegate from Washington, a graduate of Fiske University, made an eloquent speech, and as he closed, Dr. Hoge, a southern gentleman from Charleston, took him by the hand and shook it until the audience jumped to their feet and sang "Blest be the tie that binds," and

"Blest be the the that binds," and cheered fully five minutes.
Dr. Hodge gave us a masterly address.
He said, I believe in the coronation of childhood. Jesus set a child in their midst. A child's place is in the midst of the Disciples. He said, it is not learning, nor volubility nor erudition nor eloquence that makes a good teacher, but a consecrated personality.

The convention was a grand success.

The convention was a grand success. There was an inspiration in numbers. The thrill of earnest Christian enthusasm was there. Michigan has 3,373 Sunday schools, 252,870 scholars and 47,230 teachers. A total engaged in Sunday school work in this state alone of 300,100. The United States has 99,762 Sunday schools with 8,034,478 scholars and 1,107,170 teachers. The world has 16,447,990 scholars and 1,952,167 teachers, a total of 18,400,157 S. S. workers—what an army! The U. has just one half of all the S. S. work-

ers in the world.
We thought as we left the convention that the work must be a very important one, or it could not call out such a gathering of some of the best and most learned men in this age. E. R. E. COWELL.
